

# Marcus Tobias Reyes, Ph.D.

123 Fannin Street, Apt 4B • Houston, TX 77030 • marcus.reyes@example.com • (302) 220-3914

## Education

---

**Ph.D., Epidemiology** — Johns Hopkins Bloomberg School of Public Health, 2019

**B.S., Biology** — University of Houston, 2014

## Academic Appointments

---

**Assistant Professor of Epidemiology** — Emory University Rollins School of Public Health, 2021–present

**Postdoctoral Fellow** — Harvard T.H. Chan School of Public Health, 2019–2021

## Research Interests

---

Machine learning for population health surveillance; AI fairness in clinical decision support; large-scale EHR and claims data analysis; causal inference methods.

## Selected Publications

---

- Reyes MT et al. (2024). Algorithmic bias in sepsis prediction models across racial subgroups. *JAMA Network Open*.
- Reyes MT, Powell A. (2023). Federated learning for multi-site epidemiological studies. *PLOS Medicine*.
- Reyes MT et al. (2022). Fairness-aware survival models in oncology. *Nature Medicine*.

## Teaching

---

- EPI 510: Applied Machine Learning for Public Health (Emory, graduate)
- EPI 301: Biostatistics I (Emory, graduate)
- Guest Lecturer, AI in Medicine (Harvard Medical School, 2020–2021)

## Grants & Funding

---

- NIH R01: “Equitable AI for Chronic Disease Prediction” (PI, 2023–2028, \$2.1M)
- CDC Innovation Fund: “Surveillance ML for Infectious Disease” (Co-I, 2022–2024)
